The relevance of the cited documents is indicated in the Office Action issued by the European Patent Office in the corresponding European Application No. 05707919.6 on September 4, 2007, a copy of which is being submitted herewith.

It is respectfully requested that the cited documents be considered by the Examiner in the above-identified patent application and that the cited documents be made officially of record therein. It is further requested that a listing of the same appear on the face of any patent which may issue from this application.
